ABSTRACT

This document gives formatting instructions for authors preparing papers for publication in ''. The authors must follow the instructions given in the document for the papers to be published. You can use this document as both an instruction set and as a template into which you can type your own text. The body of abstract immediately follows abstract heading in the same paragraph. For example, this paragraph begins with abstract heading

Keywords: Include at least 5 keywords or phrases, must be separated by commas to distinguish them

INTRODUCTION

This guideline is used for *'title'*. These are the manuscript preparation guidelines used as a standard template for all paper submissions of *'title'*. Author must follow these instructions while preparing/modifying these guidelines.

PAGE LAYOUT

An easy way to comply with the paper formatting requirements of *'title'* is to use this document as a template and simply type your text into it.

Your paper must use a page size corresponding to A4 which is 210mm wide and 285mm long. The margins must be set as follows:

Top = 0.5 inch

Bottom = 0.5 inch

Left =1 inch

Right=1 inch

The Paper Should Have the Following Structure

1. Title of the paper
2. Authors and affiliations
3. Abstract (at least 100 words)
4. Keywords
5. Introduction - including motivation, aims (and for long papers structure of the paper), overview and references to related work (in separate section)
6. Main body - explanation of methods, algorithms, data s e t used, and instrumentation (sensors,systems, etc.)
7. Results and Discussion
8. Conclusions
9. References

Mail Id:

Your goal is to adhere to this paper in appearance as closely as possible.

PAGE STYLE

All paragraphs must be justified alignment. With justified alignment, both sides of the paragraph are straight.

Text Font of Entire Document

The entire document should be in Times New Roman.

Title and Author Details

All title and author details must be in single-column format and must be centered.

Every word in a title must be capitalized except for short minor words such as "a", "an", "and", "as", "at", "by", "for", "from", "if", "in", "into", "on", "or", "of", "the", "to", "with".

Author details must not show any professional title (e.g. Managing Director), any academic title (e.g. Dr.) or any membership of any professional organization (e.g. Senior Member IEEE).

To avoid confusion, the family name must be written as the last part of each author name (e.g. John A.K. Smith).

Each affiliation must include, at the very least, the name of the company and the name of the country where the author is based (e.g. Causal Productions Pty Ltd, Australia).Email address is compulsory for the corresponding author.

Section Headings

No more than 3 levels of headings should be used. Other headings must be in 11pt font except Level-1 Heading. Every word in a heading must be capitalized except for short minor words.

Level-1 Heading: A level-1 heading must be in left-justified and numbered with an Arabic numeral. For example, see heading "3 Page Style" of this document. The two level-1 headings which must not be numbered are "Acknowledgment" and "References".

Level-2 Heading: A level-2 heading must be left-justified and numbered with an Arabic numeral followed by a period. For example, see heading "3.3. Section Headings" above.

Level-3 Heading: A level-3 heading must be numbered with an Arabic numeral. The body of the level-3 section immediately follows the level-3 heading in the different paragraph.

Figures and Tables

Graphs and other numbered figures should appear throughout the text as close to their mention as possible. Figures shouldn't infringe upon the page borders.

Figures and tables must be justified or centered according to the length of the caption. Large figures and table can be in one column in order to see them more clearly and avoid placing them in the middle of columns. Any table or figure that takes up more than 1 column width must be positioned either at the top or at the bottom of the page. "Figure. 1" should be used, even at the beginning of a sentence.

Figure1. *Put your caption here, Put your caption here*

Figure Captions

Figures must be numbered using Arabic numerals. Figure captions must be in 10 pt Italic font. Captions of a single line (e.g. Figure 2) must be centered whereas multi-line captions must be justified(e.g. Figure 1). Captions with figure numbers must be placed after their associated figures, as shownin Figure 1.

Figure2. *Example of an image*

Table Captions

Tables must be numbered using Arabic numerals. Table captions must be justified and in 10pt italic font. Every word in a table caption must be capitalized. Captions with table numbers must be placed before their associated tables, as shown in Table 1.

Equations

Equations should be numbered consecutively throughout the paper. The equation number is enclosed in parentheses and placed flush right, as in (1). Your equation should be typed using the Times New Roman font (please no other font). To create multileveled equations, it may be necessary to treat the equation as a graphic and insert it into the text after your paper is styled.

$$k \frac{\partial^2 T}{\partial x^2} = \rho c_p \frac{\partial T}{\partial t} \qquad (1)$$

References

The heading of the References section must not be numbered. All reference items must be in 11 pt font. Please use Regular styles to distinguish different fields as shown in the References section. Number the reference items consecutively in square brackets (e.g. [1]). References should be cited in the text and listed in the reference section. Refer simply to the reference number, as in [3]—do not use "Ref. [3]" or "reference [3]" Capitalize only the first word in a paper title, except for proper nouns and element symbols.

CONCLUSION

This guideline is used for the conference proceedings to be published in NavaJyoti, the interdisciplinary journal of the college. These are the manuscript preparation guidelines used as a standard template for all paper submissions of NavaJyoti. Author must follow these instructions while preparing/modifying these guidelines.

ACKNOWLEDGEMENT

An acknowledgement section may be presented after the conclusion, if desired.
